## Poster Presentation Programme

Tuesday 29<sup>th</sup> May, 12:50 – 14:30

Abstract number	Poster title	Presenting Author
105	Corrosion resistance of thermal sprayed aluminum coated steel exposed to the atmosphere for 25 years	Gen NAKAYAMA, IHI Corporation, Japan
135	Li reactivity measurement during the surface pretreatment of Al-Li alloy AA2050-T3	Kevin Ogle, Chimie-Paristech, France
183	Measurement of Corrosion Resistance of AL 7075 Surface for Subsea Applications	Youngkyun Seo, Korea Research Institute of Ships & Ocean Engineering (KRISO), South Korea
196	Title of the paper: Sealing of anodic film on AA2024 aluminium alloy with lithium-containing salt	Yanwen Liu, University of Manchester, UK
197	A Novel Conversion Coating for AA2024-T3 by vanadium (IV)	Zhiqiang Gao, University of Science and Technology Beijing, China
204	Effect of surface treatments on the localized corrosion resistance of the AA2198-T8 aluminum lithium alloy welded by FSW process	Uyime Donatus, IPEN, Brazil
